Re - MY INVESTMENT IN EPT  
YOUR INVESTMENT IN ARGO/RVUE

Ms. PRINCE - BROEKHUIZEN,

I would like to reintroduce myself as I have only met you once, in 2011 when your son Erik came home to speak at Hope College. My name is John Mattera and I run a private equity firm investing my own money. It is called Mattera Reserve and I was introduced to Bob Haveman by Bradford Van Sicken in 2009/2010.

I invested in many deals of Bobs and yours, EPT is one in which I am attempting to collect a debt the company owes me. I have been trying since 2012 - and in 2013 I sent demands as I received zero consideration for the 325,000 in wires directly to EPT and Bob Havemans instructions as President of EDP Management. He flew me in from Boca Raton with your daughter Betsy on EPP's jet, took me to your office and EPT's factory, I even brought in Roger Penske and his fund, "TRP FUND" and his MD of the fund, Jim Hilsop to invest in EPT too. What they had found out at the time, after I made my investment, was that the financials of the company were fraudulent and Bob Haveman blamed it on Mike Sims. He has

constantly blamed it on Sims and all I wanted was for him to return my wires, he never did,

I have also invested over \$4.5M into Fisker Automotive and that was a complete loss, this was per Bob Haveman too. I am getting that settled and will be home shortly as I have a motion to vacate my case.

Bob said he was investing money into ARGO/RVUIE for EDP and that investment went south in 2011 so I retained lawyers in NYC but when they found out about my predicament, they settled the case without Mattera Asset Management or Haveman's interest. This was unlawful and I have a potential case against the firm currently, ask Bob to join me, he declined and I thought it would be best to write you to see if your advisors/attorney want to call me to discuss the matters at hand as it can be beneficial for both of us.

Please contact me at 662-751-4810 to arrange a call with me thru my counselor, Mr. Moore. This is a "LEGAL CALL" so your attorney must be present and we can have a candid chat on how to proceed.

I have included a "demand letter #2" sent to Jim Schreiber, EPT's CEO/CFO and Bob was making arrangements for me to speak directly to Joel Cowell's and as with everything Bob Haveman has represented, it fell thru. Thank you for your time and hopefully I will hear from you within the week as my last resort on EPT is litigation and I think if we pursue the legal malpractice claim against the New York law firm, it will be fruitful.

Your Attorneys can also reach out to my Power of attorney, Mike Magolnick at 770 733 7939 so we can begin dialog on these matters.

I want to thank you very much for your attention to these matters, I have always enjoyed speaking with Erik and I hope he and your family are doing well in these troubled times. I just lost my Mother last Wednesday and I wouldn't wish my situation on anybody. Please love on your children and tell them I said to love on you like there is no tomorrow. I know she is in a better place and I know god is taking good care of her.

Thank you again,

Very truly yours,

JOHN A. Mattera
